To Whom it May Concern:

I have had the privilege of working with Anastasia Miller-Youst as a student in my Trigonometry/Precalculus class this school year. Anastasia is a gifted math student who regularly earns one of the top scores among her class on tests and quizzes. Her assignments are completed neatly and thoughtfully, evidence of her thorough understanding of the content. Anastasia is always kind and respectful and comes to class each day with a positive attitude. She is well-liked and respected by her classmates and is fantastic at working with others, patiently and skillfully explaining difficult concepts to those around her when they need help. She is consistent and reliable and a tremendous asset to my classroom environment.

In addition to her academic strengths, Anastasia is actively involved in performing and the arts. Her talents of dancing and singing earned her a special part in her core's play, "Sent," during the fall semester. She has a key role in this semester's play as well, serving as stage manager for their latest production, "Street Scene." She has employed her singing talent to serve her community as well. As a member of a touring choir that visits nursing homes during her school breaks.

I am honored to have had the chance to teach and know Anastasia this school year. It is with confidence that I give her my highest recommendation.

Sincerely,
